

DESCRIPTION OF THE ADDITIONAL ELECTRIC CHARGING SERVICE

IMPORTANT NOTE

This is a translation into English for reference purposes only.

The original Italian text of this document can be read here ([hyperlink](#)).

In the event of any discrepancy between the original Italian version and this English translation, the original Italian version shall always prevail.

The Additional Electric Charging Service (hereinafter the "**Charging Service**") is provided by Pirelli Tyre S.p.A. through access to publicly accessible electric vehicle charging infrastructure (hereinafter "**EVCI**") owned or in any case managed by **Enel X Way Italia S.r.l.** (hereinafter referred to as "**Enel XWI**") for EVCI with AC/DC type outlets under 100kW.

The Charging Service is provided in Italy. The list of available EVCI can be found at www.pirellicare.com (the "**Site**") and on the dedicated PIRELLI Care™ App (the "**App**").

The Charging Service allows the reservation of EVCI and the charging of the electric vehicle at the selected EVCI.

The Charging Service can only be purchased as an Additional Service. The Charging Service can be purchased concurrently with or subsequent to the purchase of a PIRELLI Care™ package, throughout the validity period of that package.

The Charging Service may be used immediately if purchased at the same time as a PIRELLI Care™ Package. If purchased subsequently to the purchase of a PIRELLI Care™ Package, the Charging Service may be used after 48 hours.

The Charging Service can be provided on any vehicle linked to the PIRELLI Care™ Customer account.

1. Characteristics of available EVCI - Times of use

Type of socket	Maximum power	Times of use
AC	22kW	everyday - 7 a.m. to 11 p.m.
AC	43kW	everyday - from midnight to 11:59 p.m.
DC	50kW	everyday - from midnight to 11:59 p.m.
DC	>50kW and < 100kW	everyday - from midnight to 11:59 p.m.

2. Costs

The Charging Service involves the payment of an amount of €0.6667/kWh (VAT included), with a minimum monthly amount of €20.00 (VAT included).

The Charging Service is invoiced monthly, on the last day of the month following the month of consumption. The first invoicing will take place the month following that of the activation of the service.

3. Penalty

In case of connecting the vehicle to an EVCI for a period longer than 60 (sixty) minutes after the **End of Charging** notification has been sent (meaning the moment when the charging process of a vehicle by means of an EVCI ends) a penalty of € 0.18/min (amount not subject to VAT pursuant to art.15 of Presidential Decree 633/72) will be applied starting from the 61st minute.

4. Reservation of EVCIs

Booking of EVCIs is possible in the 15 minutes prior to unlocking and starting the charging process on the selected EVCI. The PIRELLI Care™ Customer can reserve the EVCI and unlock the socket only through the App.

In case of failure to start the **Charging Session** (meaning a session of at least one minute or with at least 0.1 kWh withdrawn by an electric vehicle being charged) within this interval, the EVCI will be available again for other customers.

5. Contact Center

PIRELLI Care™ Customers can request assistance regarding the Charging Service by contacting the Contact Center at the following phone number: **800 689 843** available from Monday to Friday from 8:30 to 18:00.
